TERMS OF REFERENCE OF DEVELOPING URBAN DEVELOPMENT POLICY FOR KILIFI COUNTY, KENYA

1.0 INTRODUCTION

Kilifi County is one of the six counties in the coast region of Kenya. It lies between latitude 2° 20" and 4° 0" south and between longitude 39° 05" and 40° 17 East. It borders Taita Taveta County to the West, Kwale county to the South West, Tana river county to the North, Mombasa county to the West and the Indian ocean to the East. Kilifi county covers a total area of 12,370.8 km² (CGK, 2018-2022).

The County's main urban centers are; Kilifi, Malindi, Mtwapa, Mazeras, Mariakani, Watamu, Magarini, Marereni, Majengo and Bamba. According to Kilifi County Integrated Development Plan 2018-2022 the rate of urbanization in Kilifi is projected to be at 50% and 60% by 2030 and 2050 respectively. As population increases rapidly, the county's capacity to sustainably accommodate the population still remains constant. Urban authorities face pressure of meeting the needs of the fast growing population. Urban planning, governance and development is wanting hence a series of challenges like environmental degradation, traffic congestion, emergence of slums, unplanned building structures, competing land uses, poor management of waste, urban sprawl, high rates of unemployment, increasing prevalence of urban poverty and inequality.

Kilifi County is uniquely placed in respect to access to a myriad of blue economy services, energy access, agriculture, tourism, hotel industry and wildlife to name but a few. However, with rapid urbanization, industrialization, consumerisms, changing lifestyle pattern and economic spur then there is need for proper planning of urban centers for future expansion of the county and for the promotion of sustainable development through the formulation of an urban development policy. Urban centres are estimated to contribute about 70% of gross domestic product (GDP) to the national development. It is therefore crucial to harness the huge potential of urbanization as a pathway to growth and development while addressing challenges that emerge from urbanization. Sustainable development, urbanization and governance at the County level has been supported by the Constitution of Kenya 2010, Urban Areas and Cities Act 2012 amended in 2016, County governments Acts 2012, The Lands Act 2012, The Land Registration Act 2012, The Land Laws Amendment Act 2016, The Physical Planning Act 1996 (revised in 2009), The Survey Act Cap 299 (revised 2012), The National Land Commission Act 2012 and The Environment and Land Court Act 2011.

Urban centres consume about 75 percent of world's natural resources for economic growth while generating waste. Urban transition and growth is likely to present social and economic opportunities as well as significant challenges. The anticipated changes brought about by urbanization prompts the need to prepare a County urban development policy which aims at strengthening development planning, urban governance, management, urban investment and delivery of social and physical infrastructure in Kilifi county. The long-term goal of the policy is to accelerate economic growth, reduce poverty, promote equity and help realize vision 2030 and sustainable development goals (SDGs) by 2030 in order to make Kilifi county a middle-income county within two decades.
